

INTEGRATED

Business Automation

system	target	description	product code
BACnet	MANY	BACnet Server with open driver	BAC-ANYC-021
BACnet	EIB	BACnet Server with EIB Client	BAC-EIBC-002
BACnet	LON	BACnet Server with LON Client	BAC-LONC-001
BACnet	M-BUS	BACnet Server with m-bus driver for metering	BAC-MBUS-004
BACnet	MODBUS	BACnet Server with modbus master driver	BAC-MODM-003
BACnet	MODBUS	BACnet Server with modbus slave driver	BAC-MODS-007
BACnet	Fidelio	BACnet Server for MICROS Fidelio hotel booking application	BAC-FIDE-001
BACnet	OPC	BACnet Server with OPC Client	BAC-OPCC-002
BACnet	VSD	BACnet Server with Siemens Variable Speed Drives application	BAC-SVSD-002
OPC	MANY	OPC Server with open driver	OPC-ANYC-022
OPC	Fidelio	OPC Server for MICROS Fidelio hotel booking application	OPC-FIDE-001
OPC	EIB	OPC Server with EIB Client	OPC-EIBC-003
OPC	LON	OPC Server with LON Client	OPC-LONC-001
OPC	M-BUS	OPC Server with m-bus driver for metering	OPC-MBUS-004
OPC	MODBUS	OPC Server with modbus master driver	OPC-MODM-001
OPC	MODBUS	OPC Server with modbus slave driver	OPC-MODS-001
Citect	Lighting	Cicode driver for lighting control application	CIT-LIGH-001
Citect	Fire	Cicode driver for Fire System monitoring application	CIT-FIRE-003
Citect	Security	Cicode driver for Security Access application	CIT-ACCE-025
Citect	Fidelio Booking	Cicode driver for MICROS Fidelio hotel booking application	CIT-FIDE-002
Citect	M-BUS	Cicode driver for M-Bus metering application	CIT-MBUS-002
MANY	Alarms	foundation server for remote alarm notification to pagers, printers etc	ANY-ALAS-011
MANY	Alarms	advanced server for remote alarm notification to sms, email etc	ANY-ALAS-012
MANY	Hotel	hotel booking system interaction	ANY-HOTB-056
MANY	History and trend	server for storage, retrieval and visualisation of history and trending	ANY-HISS-045
MANY	Energy report	enhanced server option for report / energy billing from history server	ANY-HISS-046
MANY	Time scheduler	central time scheduler for control of all connected sub-systems	ANY-ALAS-002
Hardware	All	embedded controller - enhanced	ENH-ANYD-520
Hardware	All	embedded controller - extreme	EXT-ANYD-361

Media Automation

system	target	description	product code
Media	audio and visual	Jango media centre - Foundation media server + Client	MDA-MUSE-065
Media	audio and visual	Jango satellite - satellite zone player	MDA-MUSE-066
Media	audio and visual	Jango repeater - repeater zone player	MDA-MUSE-067
Media	audio and visual	Jango PDA Control - multi-zone control	MDA-MUSE-068
Media	audio and visual	Jango Touch-screen - touch-screen control	MDA-MUSE-069
